The repairs cost of any equipment at workshop or replacement cost of equipment shall be paid extra as per actual. Invoices to be produced for reimbursement.
2. **TOOLS & PLANTS:** All the general & special tools, tackles i/c chain pulley blocks etc., required for proper maintenance and repairs/break down etc, shall be arranged by the contractor at his own cost and issue to the staff deployed by him for this work.
3. **DEPLOYMENT OF STAFF:**
  - a) The agency shall deploy technicians and helpers for satisfactory periodic/routine, special maintenance of Wet Riser Firefighting System.
  - b) Any extra labour of any nature if required at any time for attending any repair/break down shall be deployed by the agency at his own cost for which nothing extra shall be payable.
  - c) The deployed labour shall be sufficient, experienced and qualified/trained in operation & maintenance of Fire Fighting System so that all the break downs/repairs are attended immediately with minimum possible down time. Any unjustified delay in repairing of equipment's shall be treated as breach of contract and suitable penalty shall be imposed and recovered from the monthly bill/security deposited. Break

Down period shall not be more than two hours beyond that the penalty of Rs. 500 /- per day will be recovered from the contractor`s bills.

**4. Schedule of Maintenance:** The purpose of testing the pump assembly is to ensure automatic or manual operation upon demand and continuous delivery of the required system output. An additional purpose is to detect deficiencies of the pump assembly not evident by inspection.

**4.1 Weekly tests:**

- Check water leakage in hydrant system if any
- Check yard hydrants
- Check First and hose reel
- Check automatic operation of Main Electrical pumps

**4.2 Monthly tests:**

- Check automatic operation of Diesel engine
- Check air filter of Diesel Engine
- Check settings of Controls
- Cleaning of all hydrants and nozzles
- Tighten glands & replace glands Dori if required of all pumps & valves
- Check operation of Fire brigade inlet and outlet valves
- Check the conditions of portable fire extinguishers inside the pump room

**4.3 Quarterly tests:**

- Check all sluice and gate valves and descale
- Grease all the bearings of pumps & motors
- Check connections of all the cables, switches and starters on Main Fire panel

**4.4 Annual Tests:**

- An annual test of each pump assembly shall be conducted under minimum, rated, and peak flows of the fire pump by controlling the quantity of water discharged through approved test devices.
- Use of the pump discharge via the hose streams; pump suction and discharge pressures and the flow measurements of each hose stream shall determine the total pump output. Care shall be taken to prevent water damage by verifying there is adequate drainage for the high-pressure water discharge from hoses.
- Use of the pump discharge via the bypass flow meter to drain or suction the reservoir; pump suction and discharge pressures and the flow meter measurements shall determine the total pump output.
- Use of the pump discharge via the bypass flow meter to pump suction (closed-loop metering); pump suction and discharge pressures and the flow meter measurements shall determine the total pump output.

- The pertinent visual observations, measurements, and adjustments specified in the following checklist shall be conducted annually while the pump is running and flowing water under the specified output condition.
  
- **At No-Flow Condition (Churn). (Conduct this test first.)**
  - Check the circulation relief valve for operation to discharge water.
  - Check the pressure relief valve (if installed) for proper operation.

Continue the test for 1/2 hour at each Flow Condition
  
- **Record the electric motor voltage and current (all lines).**
  - Record the pump speed in rpm.
  - Record the simultaneous (approximately) readings of pump suction and discharge pressures and pump discharge flow.
  - Observe the operation of any alarm indicators or any visible abnormalities.
  - For installations having a device installed to control minimum suction pressure by throttling action, low suction pressure on the device (below set minimum value) shall be simulated while pumping at the rated flow. Throttling action shall be observed for any abnormality (e.g., cavitation's, pressure surges, and failure to throttle). The simulated low suction pressure on the device shall be removed and throttling action again shall be observed for any abnormality as the pump returns to full flow.
  - For installations having an automatic transfer switch, the following test shall be performed to ensure that the over current protective devices (i.e., fuses or circuit breakers) do not open. Normal power failure shall be simulated while the pump is delivering peak power output to cause connection of the pump motor to the alternate power source. The pump's peak power output shall be restored (if necessary). The simulated normal power failure condition then shall be removed, which, after a time delay, shall cause the reconnection of the pump motor to the normal power source.
  - Alarm conditions shall be simulated by activating alarm circuits at alarm sensor locations, and all such local or remote alarm indicating devices (visual and audible) shall be observed for operation.
  
- **Other Tests.**
  - Engine generator sets supplying emergency or standby power to fire pump assemblies shall be tested.
  - Tests of appropriate environmental pump room space conditions (e.g., heating, ventilation, illumination) shall be made to ensure proper manual or automatic operation of the associated equipment.
  
- **Test Results and Evaluation.**
  - The interpretation of the test results shall be the basis of the determination of adequacy of the pump assembly. Such interpretation shall be made by those skilled in such matters.

- The pump test curve shall be compared to the unadjusted field acceptance test curve and the previous annual test curve(s). Increasing engine speed beyond the rated speed of the pump at rated condition is not an acceptable method for meeting the rated pump performance. Theoretical factors for correction to the rated speed shall not be applied where determining the compliance of the pump per the test.
  - Current and voltage readings whose product does not exceed the product of the rated voltage and rated full-load current multiplied by the permitted motor service factor shall be considered acceptable. Voltage readings at the motor within 5 percent below or 10 percent above the rated (i.e., nameplate) voltage shall be considered acceptable.
  - The pump shall be capable of supplying the maximum system demand.
- **Reports.**
    - Any abnormality observed during inspection or testing shall be reported promptly to the person responsible for correcting the abnormality.
    - Test results shall be recorded and retained for comparison. All time delay intervals associated with the pump's starting, stopping, and energy source transfer shall be recorded.

**5. CONSUMABLES:**

- a) The rates shall be all inclusive of all consumables as per schedule of work. All consumables shall be arranged by the contractor for which nothing extra shall be payable. Replacement/repairs cost to any damaged/broken/unserviceable parts will be paid extra as actual. Claims towards repairs/replacement cost supported with tax invoices shall be submitted separately.
- b) Log book and complaint books, all stationery like registers, sheets, markers, pens and pencils etc. will be supplied by the contractor and no extra payment for these shall be made. Log book proforma must be approved by Bank's Fire Officer/Security officer.

**6. Contract Period & Renewal of Contract:**

1	The contract can be initially awarded for 1 year or fraction of the year at the Bank's discretion and the AMC can be further renewed annually as per the conditions mentioned under renewal of Contract.
2	<b><u>Renewal of Contract.</u></b> The service contract shall be valid for one year (or fraction of year) and it may be renewed further two years on the basis of increase in CPI & WPI as mentioned above after providing the satisfactory services.

**7. Special Conditions:**

- a. The firefighting system installation is designed for Office buildings. The system is required to be maintained throughout the contract period. The contract covers providing the skilled staff for preventive maintenance, replacement / repairing of defective equipment's etc.

- b. The quoted rate shall be inclusive of consumable materials i.e. cotton waste, calico cloth, grease, petroleum jelly, brasso, wire joot, insulation tape, CTC material, zero paper, battery water, etc.
- c. The contractor should deploy only technical / skilled persons for maintenance work for the wet riser fire hydrant system & Sprinkler system including all associated equipment's / sub units i.e. electrical starter panel including timer, indicators lamps, fuses, battery charging circuits, engine primer (24V, DC motor) etc.
- d. The skilled person should have thorough knowledge regarding function of system and operation of Diesel engine and end suction Pump assembly as per technical specifications.
- e. The deployed staff should be familiar operation of pumps / carrying out preventive maintenance of all the equipment's as per the desired schedule.
- f. Specified LOG Book to be maintained for maintenance of Pump assembly and accessories and to be put up for signature of Bank' Fire officers/Security officers.
- g. The contractor shall attend the complaint which needs any replacement of spares etc. required for the smooth operation after getting the prior approval from Bank's Officials.
- h. The contractor shall attend the complaints on holidays / after office hours also considering the importance of the system, in case of emergency.
- i. The contract amount shall include of all necessary testing charges /tools/for trail/runs etc. The charges include for carrying out the periodical preventive maintenance of all the Electrical equipment's and proper register to be maintained and the extract shall be furnished to Estate office along with AMC bills.
- j. Whenever particular equipment goes out of order, the fact shall be brought to the notice of the Bank's Engineer immediately. If any need intimation to Bank's Engineer, material need to be replaced, the same shall arranged within shortest time. Repair / replacement work shall be taken up immediately and to be completed with the prior approval from Bank's Officials and the cost of Spares parts will be not covered under the AMC charges. Cost towards replacement of spare parts and repairs of installations, if any, shall be reimbursed separately.

**8) Detailed Planned operation / preventive maintenance scheduled is placed below: -**

- a) Clean the starter panel if any dust and clean the starter terminals with zero paper to avoid pitting.
- b) Check the DC charging circuit for proper functioning in monthly basis
- c) Tighten the cable terminals if any loose contact in the fire/starter panel.
- d) Apply the petroleum jelly in the battery terminals bi- monthly
- e) Take the battery terminal voltage and current in RUN and IDLE conditions and maintain a log book in daily basis.
- f) Check all the pumps operation daily & whole wet riser system once in a month to up keep the system in optimum operation condition.
- g) Check the alignment of pumps once in six months.
- h) Check the system for leakage on regular basis and if any leakage noticed, that shall be attended/rectified within 12 hrs, to keep the system is in good condition to meet the emergency.

- i) Maintain a dust and drift free environment to avoid corrosion of the system.
- j) Remove if any accumulated water logging near the vicinity of the pump assembly on the regular basis.
- k) Clean the valve of wet riser system every month & apply brasso on brass parts, power on hose reels to maintain the hydrants and accessories in proper manner.
- l) The contractor shall submit detailed report of all actions taken to the Bank's Officer.

### PROFORMA OF BANK GUARANTEE for PERFORMANCE SECURITY DEPOSIT/ Retention Money

(On Non-Judicial Stamp Paper of appropriate value purchased in the name of the issuing Bank)

Place : \_\_\_\_\_

Date : \_\_\_\_\_

The Regional Director

Reserve Bank of India,

\_\_\_\_\_  
Dear Sir,

**Name of the work** \_\_\_\_\_ -

#### **Bank Guarantee For PERFORMANCE SECURITY DEPOSIT/ Retention Money**

#### WHEREAS

Reserve Bank of India, having its Central Office at Shahid Bhagat Singh Road, Mumbai, (hereinafter called "the RBI") has awarded the Contract for the captioned project (hereinafter called the "Contract") to M/s \_\_\_\_\_ (Name of the Contractor) (hereinafter called "the said Contractor" which expression shall include its successors and assigns).

AND Whereas the Contractor is bound by the said Contract to submit to RBI a Performance Security for a total amount of ₹. \_\_\_\_\_ (Rupees \_\_\_\_\_ only) (Amount in figures and words) for the due fulfilment by the said contractor of the terms and conditions contained in the contract. We, \_\_\_\_\_ (Name of the Bank), (hereinafter called "the Bank"), at the request of M/s \_\_\_\_\_, the contractor, do hereby undertake to pay to the RBI an amount not exceeding Rs \_\_\_\_\_ as Performance Guarantee for due fulfilment of the terms and conditions of the contract.

#### NOW THIS GUARANTEE WITNESSETH

1. We \_\_\_ (Name of the Bank) do hereby agree with and undertake to RBI, their Successors, Assigns that in the event of the RBI coming to the conclusion that the Contractor has not performed his obligations under the said conditions of the contract or have committed a breach thereof, which conclusion shall be binding on us as well as the said contractor; we shall on demand by the RBI, pay without demur to the RBI, a sum of Rs. \_\_\_\_\_ (Rupees \_\_\_\_\_ only) or any lower amount that may be demanded by the RBI. Our guarantee shall be treated as equivalent to the Performance Guarantee Amount for the due performance of the obligations of the Contractor under the said Contract, provided, however, that our liability against such sum shall not exceed the sum of Rs. \_ (Rupees \_\_\_\_\_ only).

2. We also agree to undertake to and confirm that the sum not exceeding Rs. \_ (Rupees \_\_\_ only) as aforesaid shall be paid by us without any demur or protest, merely on demand from the RBI on receipt of a notice in writing stating that the amount is due to them and we shall not ask for any further proof or evidence and the notice from the RBI shall be conclusive and binding on us and shall not be questioned by us in any respect or manner whatsoever. The Bank shall pay to RBI any money so demanded notwithstanding any dispute/disputes raised by the Contractor in any suit or proceedings pending before any Court, Tribunal or

Arbitrator/s relating thereto and the liability under this guarantee shall be absolute and unequivocal. We undertake to pay the amount claimed by the RBI within a period of one week from the date of receipt of the notice as aforesaid.

3. We confirm that our obligation to the RBI under this guarantee shall be independent of the agreement or agreements or other understandings between the RBI and the Contractor.

4. This guarantee shall not be revoked by us without prior consent in writing of the RBI.

We hereby further agree that –

a) Any forbearance or commission on the part of the RBI in enforcing the conditions of the said agreement or in compliance with any of the terms and conditions stipulated in the said Contract and/or hereunder or granting of any time or showing of any indulgence by the RBI to the Contractor or any other matters in connection therewith shall not discharge us in any way and our obligation under this guarantee. This guarantee shall be discharged only by the performance by the Contractor of their obligations and in the event of their failure to do so, by payment by us of the sum not exceeding Rs. \_\_\_\_\_ (Rupees \_\_\_\_\_ only).

b) Our liability under these presents shall not exceed the sum of Rs. \_\_\_\_\_ (Rupees \_\_\_\_\_ only) .

c) Our liability under this agreement shall not be affected by any infirmity or irregularity on the part of our said constituents/clients or their obligations thereunder or by dissolution or change in the constitution of our said constituents.

d) This guarantee shall remain in force upto \_\_\_\_\_ (60 days beyond the Defect liability period) provided that if so desired by the RBI, this guarantee shall be renewed for a further period as may be indicated by them on the same terms and conditions as contained herein.

e) Our liability under these presents will terminate unless these presents are renewed as provided hereinabove on the \_\_\_\_\_ or on the day when our said constituents comply with their obligations, as to which a certificate in writing by the RBI alone is the conclusive proof whichever date is later. Unless a claim or suit or action is filed against us within \_\_\_\_\_ or any extended period, all the rights of the RBI against us under this guarantee shall be forfeited and we shall be released and discharged from all our obligations and liabilities hereunder.

In witness whereof I/We of the Bank have signed and sealed this guarantee on the ----- day of -----  
- (Month) (Year) being herewith duly authorized.
